# KAITLYN THRENDYLE

#### INTRODUCTION

Two years ago, I left my web developer job to travel to Taiwan, further my Chinese studies and experience life in a new country. After two semesters at NTNU, a cycling trip around the island, and many more adventures, I'm back in Canada, eager to embark on my next chapter. Equipped with a unique perspective and enhanced adaptability and communication skills from my time abroad, I'm enthusiastic about applying my abilities and creativity to a role that fosters continual learning and growth.
